

THE PROJECT

GreenHeritage is a EU-funded project that aims at determining the influence of climate change on the intangible cultural heritage. To achieve this, inclusive and innovative tools and methodologies will be designed to enhance knowledge around the threat of climate change and the management, preservation and protection of the intangible cultural heritage.

In the span of three years, the **GreenHeritage** project will establish synergies with professionals, educational centers, administrations, local agents and civil society. **GreenHeritage** aspires to function as an urgent reminder that climate change is present, affecting both directly and indirectly all aspects of Europe's cultural heritage.

PARTNERS

Led by **Consiglio Nazionale delle Ricerche (CRN)**, **GreenHeritage** brings together a multidisciplinary team of professionals from 10 entities from five European countries (Belgium, Greece, Italy, Latvia and Spain).

Co-funded by
the European Union

BUDGET AND LENGTH

The project is funded by the European Union under the Erasmus+ program. It will last 36 months (December 2022 to November 2025) and it has a budget of 999,962 €, out of which 80% will be funded the European Union.

ACTIONS AND RESULTS

The joint work of the partners and countries involved will produce the following results:

- A **methodology for the management, preservation and protection of ICH** in the face of CC.
- An **interactive map** showing examples of the most endangered areas in Europe.
- A **blended learning program** on ICH and CC consisting of 4 online learning modules and 4 transnational physical workshops, targeting cross-sectoral PhD candidates, researchers, and policymakers & practitioners.
- A **micro-credentials program** on ICH and CC consisting of 4 online modules targeting a broader audience.
- **5 policy roundtables and a final conference** bringing together scientists, researchers, community leaders and policy makers.
- **5 policy briefs, and a handbook on the state of play** of ICH and CC impact at EU and national levels including key project results and final recommendations for policy change.
- A **long-term action plan** ensuring transferability of project results.
